

Matiara: Military Arms Trials, Instruction and Research of America

Elizabeth Anne Montgomery (Beth) MD, Biochemist PHD Stefani Marie Graham (Tessa), MD, Biochemist PHD James Christopher Jurez (Chris), MD, Biochemist PHD were selected from a nation wide search for the top scores in tests that were given in the United States. These three gifted students (among the top 50) were educated by the government, and sent to the best Universities in their area. They were now graduated, and immediately sent to their destination, not knowing exactly what their commitment really meant to their lives. When they arrived to Fiji, they were transferred to a private military helicopter, and flown to a beautiful compound on an island, and the beauty and magnificence of their surroundings stunned and entranced them. They were met by Dr. Maxwell Phillips (Max), and were given a briefing at their first meeting. Dr. Thomas Mahoney, Priest, biochemist and medical doctor was working as the Mission priest, and also in his lab in the cellar of the Mission Chapel. This is where he was developing his latest Bio/weapons, which were then transferred to the island of Bali for safe storage. Thus begins the adventure of disaster, and discovery as our 4 Super-scientist/MDs who call themselves the Quadropolis, begin their journey of fulfilling their mission.
