

## Lego trucks and cars.... a Lego bus and more!: Lego adventures of Jack

This book is illustrated 100% in Lego with color photographs . Lego City sets and Lego Creator sets were used to create this picture book. Lego modular buildings were used for the backdrop of this adventure series. In this adventure Jack meets the operators of trucks,cars, and commercial equipment.. Surprisingly Jack discovers that manners, safe practices, being neat, and helping others are the skills needed to operate the vehicles he dreams about. This book is about helping your child learn about safety, good manners, respecting others, and being helpful in the home. Children will also enjoy reading about the street sweeper, forklift, and fire truck included in this adventure book. This Lego story book is great for helping children learn to read. The goal of the book was to make learning and reading fun. The book ends with a good-bye as Jack is getting tired... hinting that it is a bedtime story book. The story-line of the book deals with such topics as: -neatness -being helpful -being polite -taking care of ones property -bike safety -never playing with matches/lighters -not talking to strangers without a trusted grown-up present
