

The British Combinatorial Conference attracts a large following from the U.K. and international research community. Held at the University of Wales, Bangor, in 2003, the speakers included renowned experts on topics currently attracting significant research interest, as well as less traditional areas such as the combinatorics of protecting digital content. All the contributions are survey papers presenting an overview of the state of the art in a particular area.

Research with the Locus of Control Construct: Extensions and Limitations: 3, How to Draw Fairy-Tale Characters, Psychologie im Familienrecht - zum Nutzen oder Schaden des Kindes? (German Edition), The Wisdom of Trees, Energy Psychology Journal, 2:2, Adolescent Psychiatry, An Issue of Adolescent Medicine Clinics, 1e (The Clinics: Internal Medicine), Six place logarithmic tables, together with a table of natural sines, cosines, tangents, and cotange - Scholars Choice Edition, The Blessed Life,
