

Lost and Found (Story Activity Books)

This is one of a series in which each book consists of a simple adventure story with a journey for listeners to follow, and illustrated activities presented as games of things to spot, count and compare. The activities are designed for young children to enjoy with their parents, and to encourage the development of early-learning skills in language, maths and science. In this story, Claire and Patrick search for their new kitten in the seaside town where they are on holiday.
