

Buddhism#now: Big Questions. Inner Peace. LOL

Monkfish and DVD are friends. Well, sort of. DVD likes meat pies. And a pint. And girls. But hes often miserable. Quite reasonably, he needs to know why hes not happy. The problem is, the answers keep bringing up more questions. Monkfish reckons he knows a thing or two, if only DVD would let him get a word in and stop being difficult. He wants to blend modern science with the essence of Buddhism. DVD just wants a quick reply. Can the two quarrel their way to dealing with the Big Questions of life, the universe... and Buddhism (with a little help from the author and Auntie Joan)? And what exactly is inner peace anyway? And can you still party? Dr. E Mapstone, author of *Stop Dreaming, Start Living: This book would appeal to those who are undaunted by a bit of slapstick comedy in the quest for a new meaning in life. The underlying message makes perfect sense!* Professor L. Todd, Newcastle University: Dr Mellors highly entertaining and informative introduction to Buddhism is also deeply scholarly... Certain to inspire.
