

## Care of the Horse at Grass

Whether all the year round, or on a daily basis, it is well-known among owners that all horses benefit from their time spent at grass. Well-managed pastures provide the horse with food, exercise and the psychological well-being of a more natural existence. Zoe Davies combines her technical knowledge with years of practical experience in the management of horses at grass. The book contains easy-to-follow sections which spell out the necessary instructions, accompanied by diagrams, tables and bullet points.
