

Report of the Workshop on Establishing a Coordinating Working Party on Aquaculture Statistics: Nakorn Nayok, Thailand, 8-10 January 2008 (FAO Fisheries and Aquaculture Reports)

After reviewing the data and information requirements in aquaculture and existing gaps in data collection, the necessity to harmonize standards for data, information and statistics, the relations between capture fishery and aquaculture, and structure and activities of the Coordinating Working Party on Fishery Statistics, the Workshop reaffirmed the need for a mechanism to identify, establish and harmonize standards for aquaculture data, information and statistics.
